

## EXPERIENCE

I am a graduated Full-stack Web Developer from Ironhack with a solid background in Industrial Engineering, Graphics and Web Design. After working as a web design freelancer I wanted to further develop my web and programming skills and therefore joined Ironhack. At Grant Thornton I continue to improve my web skills and develop as a person. My desire is now to contribute in a community where I can continue to improve my web skills and develop as a person. I consider myself a self-organized person, eager to learn with senior management skills, fluent in Swedish, Spanish and English.
